

INSTALLATION & SERVICE

Starter Build

- **Our lead builder works with you** for six hours — pounding and leveling posts, training you to assemble the hoophouse, and staging the rest of the build for you to complete
- **Learn our fast and easy** assembly process with our video series, which shows you every step of the build — niftyhoops.com/support
- **When we leave**, you will be well on your way to completing your hoop

Community Build

- **Muster your friends, neighbors, CSA members and community** to create an old-school barn raising style event
- **Nifty Hoops will supervise** your crew of volunteers or helpers
- **Cultivate** personal and community investment in your farm
- **Build a great memory** for everyone involved — they will want to eat your food because of it!

Full Installation

- **Our team of professional hoophouse installers** comes to your farm and finishes your installation. Projects are usually completed in one day. Instant hoop!
- **Get growing sooner** — you can be growing in your new hoophouse just a few weeks from today
- **Pour some lemonade and watch** the crew build your hoop, or roll up your sleeves and learn how its done!

Nifty Support

Our mission is to help you succeed. In so doing, we are working to build the new local farming economies that uphold our communities.

We're happy to lend you guidance on the tips and tricks of hoophouse growing in all seasons, and we warranty your hoop against defects in parts and workmanship — we've got your back!

"I believe that anyone with a little building experience could finish a high tunnel after using the Starter Build option from Nifty Hoops. I'm looking forward to purchasing my next one and won't look anywhere besides Nifty Hoops"

-Starter Build grower

"I can confidently state that this product is the best product on the market . . . Aside from the excellent service, quality workmanship, lightning-fast construction, and savvy grower friendly features, this product stands for itself . . . This review is a direct result of our confirmation that this product [with] its skilled builders is superior to the rest, and worth every penny"
